MAJOR DA SECURED: CONSTRUCTION TO COMMENCE ON STAGE 1 APARTMENT BUILDINGS

We're pleased to announce the DA for the Stage 1 Built Form at The Works has been approved. This major milestone means the following components of the new community will soon commence:

Construction of all five Stage 1 apartment buildings:

- You may have noticed work has been happening onsite for many months already – this is the Stage 1 demolition and bulk earthworks (DA approved in 2024) which includes the creation of all roadways in Stage 1 as well as basement preparations.
- This work has progressed significantly thanks to our civil works partners Abax Contracting and Perfect Contracting.
- Growthbuilt has been appointed as our construction partner for the Stage 1 apartment buildings and will soon commence work onsite. You can read more about our partnership with iCRT rated Growthbuilt [here](#).

Construction of Stage 1 public infrastructure:

- Construction of Stage 1 public landscaping, communal areas etc will be included as part of the built form works. After construction these will be dedicated to Wollongong City Council.
- Initial conservation works within the future Heritage Plaza will also get underway soon.
